

Working Paper Series

The Working Paper Series highlights the ongoing research of Coles College Faculty. This collection features drafts of research articles usually intended for future publication but shared in the early stages to motivate intellectual discussions. Such discussions can potentially lead to novel research extensions; promote high-impact collaborations across departments in addition to improving the quality of ongoing faculty research. Final published versions of these papers are often available in the Digital Commons Collection (DigitalCommons.Kennesaw.edu).

Reviewer Form

Submit a Paper

- Make sure your paper is in PDF format.
- Submit the paper by emailing it to [Jomon A. Paul](mailto:Jomon.A.Paul). In your email, please include the following:
 - Abstract
 - Keywords
 - Name(s) of co-author(s) and their affiliation(s) (department and university)

How to Revise Your Paper

If you would like to post a revised version of your paper, please send the revised version via email to [Erik Turner](mailto:Erik.Turner) and specify that it is a revision of a previously submitted (accepted) paper.

Help for Downloading Working Papers

Most papers in the Coles College Working Paper Series are available in Acrobat PDF format.
