

How to Update Existing Links for SoftChalk Lessons in D2L

SoftChalk lesson links added prior to the Enterprise SoftChalk Cloud platform migration must be updated to include "kennesaw" in the URL. It is necessary to update links for use after the migration since the link points to the address where the content resides. Though each lesson contains a unique ID that will not change, all content currently resides at "softchalkcloud.com" but after the migration will reside at "kennesaw.softchalkcloud.com." Links in future courses may be updated now but cannot be verified/tested until after the migration occurs.

Please see instructions below on how to update existing links (hyperlinks, LTI links, embedded links).

How to Update a SoftChalk Lesson if Previously Added to D2L as a Hyperlink

Use the steps below to update the URL(s) for existing SoftChalk hyperlinks in D2L:

1. Navigate to the lesson in D2L, select the **drop-down arrow** next to the lesson name, and select **Edit Link**.

2. Add "**kennesaw.**" in the URL before softchalkcloud.com (include a period between kennesaw and softchalkcloud.com)

A screenshot of the "Edit Link" dialog box. The dialog has a title bar "Edit Link" with a close button (X). There are two main input fields: "Title *" and "URL *". The "Title" field contains the text "Lesson 1.1 Introduction to Aperture Copy". The "URL" field contains the text "https://softchalkcloud.com/lesson/serve/". A red arrow points to the "URL" field with the text "Add 'kennesaw.'" above it. Below the URL field, there is a checkbox labeled "Open as External Resource" which is currently unchecked. Underneath the checkbox, it says "User progress is not tracked for external resources".

Example:

Edit Link ✕

Title *

Lesson 1.1 Introduction to Aperture Copy

URL *

https://kennesaw.softchalkcloud.com/less

Open as External Resource

User progress is not tracked for external resources

3. Select **Update** to update and save the link.

URL *

https://kennesaw.softchalkcloud.com/less

Open as External Resource

User progress is not tracked for external resources

Update **Cancel**

4. Click on the lesson name again. The lesson should now display the content.

Example:

Lesson 1.1 Introduction to Aperture ▾ 🔍 🔗

How to Update a SoftChalk Lesson if Previously Added to D2L as a LTI Link (External Learning Tool)

Use the steps below to update existing LTI links for SoftChalk lessons in D2L:

1. Navigate to **External Learning Tools** under **Course Admin**.

Course Administration

Category	Name
----------	------

Site Setup

- Availability Date Defaults
- Course Offering Information
- Homepages
- Navigation & Themes
- Widgets

Site Resources

- Calendar
- Course Design Accelerator
- Glossary
- Links
- Content
- External Learning Tools**
- Import / Export / Copy Components
- Manage Dates
- Course Builder
- Frequently Asked Questions
- Instructional Design Wizard
- Learning Activity Library
- Manage Files

Learner Management

2. Select **Manage Tool Links (Legacy)** tab.

External Learning Tools

- LTI Advantage
- Manage Tool Links (Legacy)**
- Manage Tool Providers (Legacy)

You can now migrate from Legacy LTI

New Link

- Navigate to the SoftChalk lesson name and select the **drop-down arrow** next to the name. Select **Edit Link**.

- Add "**kennesaw.**" in the URL before softchalkcloud.com (include a period between kennesaw and softchalkcloud.com)

Properties

Title *

Lesson 1 Quiz Example

Add "kennesaw."

URL *

https://softchalkcloud.com/scorecenter/lti/jFq61BlkXLmrvH

Description

Example:

How to Update a SoftChalk Lesson if Previously Added to D2L as an Embed Code Link

If you added an embed code link for your SoftChalk lesson in D2L, you may not see the content in your HTML file. Use the steps below to verify and update the URL (source code), if needed.

1. Navigate to the lesson in D2L, select the **drop-down arrow** next to the lesson name, and select **Edit HTML**.

2. Click the **three dots** to expand the **More Actions** menu.

3. Select the **</>** (Source Code).

4. Add "**kennesaw.**" in the URL before softchalkcloud.com (include a period between kennesaw and softchalkcloud.com).

Source Code

```

1 <!DOCTYPE html>
2 <html><head></head><body style="color: rgb(32, 33, 34); f
<iframe width="800px" height="600px"
src="https://softchalkcloud.com/lesson/serve/CB5LdjGvNyZi
marginwidth=0"></iframe></p></body></html>

```

Add "kennesaw."

Example:

Source Code

```

1 <!DOCTYPE html>
2 <html><head></head><body style="color: rgb(32, 33, 34); font-fami
<iframe width="800px" height="600px"
src="https://kennesaw.softchalkcloud.com/lesson/serve/CB5LdjGvNyZi
marginwidth=0"></iframe></p></body></html>

```

5. Select **Save** to update the link.

Source Code

```
1 <!DOCTYPE html>
2 <html><head></head><body style="color: rgb
<iframe width="800px" height="600px"
src="https://kennesaw.softchalkcloud.com/1
marginwidth="0"></iframe></p></body></html
```

Save Cancel

The lesson content should now display in the HTML editor.

6. Select **Save and Close** to save changes.
