Vision Statement

Southern Polytechnic State University is a comprehensive university with a unique purpose. Through a fusion of technology with the liberal arts and sciences, we create a learning community that encourages thoughtful inquiry, diverse perspectives, and strong preparation of our graduates to be leaders in an increasingly technological world.

The university – faculty, staff, students, and graduates – aspires to be the best in the world at finding creative, practical, and sustainable solutions to real-world problems and improving the quality of life for people around the globe.

Mission Statement (approved by the Board of Regents 3/8/06)

Southern Polytechnic State University is proud to be Georgia's technology university. Our academic, professional, outreach and service programs embrace all aspects of technology, including the practical applied skills (techne) needed to solve today's real-world problems and the theoretical knowledge (logos) necessary to meet tomorrow's challenges. SPSU graduates are well prepared to lead the scientific and economic development of an increasingly complex state, nation, and world.

Our mission is to serve both traditional and non-traditional students at the undergraduate, graduate and continuing education levels; in engineering and engineering technology, the sciences, applied liberal arts, business and professional programs. We work to develop the broader community's intellectual, cultural, economic, and human resources. Facilitated by our innovative faculty, dedicated staff, and supportive campus environment, our learning community empowers SPSU students with the ability and vision to transform the future.

Foreword

The Office of Institutional Research, Planning, and Assessment is proud to present the tenth publication of the **Southern Polytechnic State University Fact Book**.

The Fact Book is designed to provide current and historical data about Southern Polytechnic State University to aid decision-making.

As you review and use this publication, please make a note of items that you feel should be added or deleted. Continued improvement is the goal, and current and future publications of the Fact Book will reflect suggestions for change.

Please send suggestions to dcline@spsu.edu.

Thank you.

Dave Cline
Director of Institutional Research

General Information

Introduction

Southern Polytechnic State University, a member of the University System of Georgia, is a comprehensive technological university with a unique purpose. Through a fusion of technology with the liberal arts and sciences, SPSU creates a learning community that encourages thoughtful inquiry, diverse perspectives, and strong preparation of its graduates to be leaders in an increasingly technological world.

Southern Polytechnic is located in the historic, vibrant city of Marietta, Georgia, northwest of downtown Atlanta. Approximately 5,000 traditional and non-traditional students attend day, evening, and weekend classes on a campus of naturally wooded landscape with modern facilities and on-campus apartment housing to meet students' academic, physical, and social needs.

The institution was founded in 1948 at the request of Georgia business and industry as a two-year division of The Georgia Institute of Technology, originally called The Technical Institute and soon thereafter the Southern Technical Institute. It became an independent college in the University System of Georgia in 1980, when the school's first president, Dr. Stephen Cheshier, was named. The college became a university in 1996 with the new name of Southern Polytechnic State University. Its second president, Dr. Lisa A. Rossbacher, joined SPSU in the summer of 1998.

Academic Programs

The University offers bachelors and masters degrees and continuing professional development in science, engineering, technology, business, architecture, and related fields, with a focus on how to apply knowledge and use technology to solve real problems. Dedicated and experienced faculty with excellent academic credentials and business and industry experience teach in the University's academic areas: The School of Arts and Sciences; the School of Engineering Technology and Management; The School of Architecture, Civil Engineering Technology, and Construction; the School of Computing and Software Engineering; and the Division of Engineering.

Southern Polytechnic has earned an exceptional reputation in the field of engineering technology education. The 2008 edition of *Profiles of Engineering and Engineering Technology Colleges*, published by the American Society for Engineering Education, ranked SPSU as #1 in the number of African-American students receiving engineering technology degrees, #2 in the total number of engineering technology degrees awarded, #2 in the number of students enrolled in engineering technology programs, the third largest female engineering technology enrollment, and #4 in the number of engineering technology degrees awarded to women.

SPSU is a university of diverse and talented students. Entering freshmen rank in the top four highest SAT scores in the University System of Georgia.

Over the years, Southern Polytechnic has expanded and broadened its degree programs in some of the nation's fastest growing fields, such as software engineering and information technology, and it offers a variety of arts and sciences degrees in fields that include mathematics, physics, biology, English and professional communication, and international studies. In late 2006 and early 2007, the University added three new undergraduate engineering degree programs: Construction Engineering, Mechatronics Engineering, and Systems Engineering. The University also offers a nationally accredited Bachelor of Architecture, which has been listed in the *America's Best Architecture and Design Schools* as one of the top ten schools in the south.

Southern Polytechnic is also leading the way in Georgia with its non-degree certificate programs in technology-related areas. Non-degree certificate programs are offered through the Office of Extended University and include certification in embedded systems, computer service technician, web developer, programming, time study, and A+ Test Prep. The Computer Science Department offers a graduate certificate in software engineering that gives practitioners the opportunity to advance into leadership positions and provides courses that can apply toward the Master of Science in Software Engineering. Computer Science also offers an undergraduate certificate in programming. This certificate program offers courses that can apply towards the Bachelor of Science in Computer Science.

A University of Firsts

Southern Polytechnic is an educational institution of "firsts." In the fall of 1997, Southern Polytechnic stepped to the forefront of technological advances in education, becoming the first institution in Georgia to offer a full degree program over the Internet. The Master of Science in Quality Assurance, offered on the Internet by the Industrial Engineering Technology Department, set the tone for educational options in the future and placed Southern Polytechnic as a role model for the University System of Georgia. Since that time, Southern Polytechnic has expanded its Internet options, adding complete certificate programs as well as the electronic core curriculum (eCore) on-line and an undergraduate WebBSIT, a bachelors degree in information technology offered on-line in a consortium with five other University System schools.

Other University "firsts" include:

- The University System of Georgia's **only** nationally accredited professional Bachelor of Architecture degree
- Georgia's **first** masters program in technical and professional communication
- Georgia's **first** masters program in the management of technology (now an MBA degree)
- The Southeast's **only** masters programs in electrical engineering technology and quality assurance
- Georgia's **only** masters program in construction
- Georgia and the Southeast's **first** Bachelor of Science in Telecommunications Engineering Technology
- Georgia's **only** bachelors degree program in software engineering and Georgia's only masters degree program in software engineering at a public institution
- Georgia's **only** bachelors degree in surveying and mapping
- Georgia's **first** undergraduate degree in Construction Engineering, which is one of only nine in the country
- Georgia's **first** Mechatronics Engineering degree
- The **first** institution in the University System of Georgia to build privatized on-campus housing. These apartments served as a pilot program for the System.

Student Life

Southern Polytechnic provides many opportunities for growth beyond the classroom. The University's professional student organizations compete and win top honors in highly competitive regional, national, and international competitions. Choices for student involvement are diverse, including the Student Information Security Team, the Autonomous Underwater Vehicle Team, the Super Mileage Vehicle Team, the Aerial Robotics Team, and the school's Forensic Team, among others. Recent winning teams include the Formula Race Car Team, which placed first in the Society of Automobile Engineer's (SAE) Southeast Region competition and went on to place 19th overall in the 2006 International SAE competition competing against 130 entries from 39 states and 14 countries. The Steel Bridge Team placed first in the 2006 Southeast Regional Conference and second in 2007 at the American Society of Civil Engineers Competition against teams from such universities as Tennessee, Florida, Miami, Auburn, and Vanderbilt.

Greek organizations, the student newspaper (*The STING*), intramural programs, honor societies, student government, and other activities and organizations give students many options for participation.

Intercollegiate athletics are also an important aspect of student life. The men's basketball team, the Runnin' Hornets, has earned the opportunity of participating in the National Association of Intercollegiate Association's (NAIA) national tournament 12 times. They have been Southern States Athletic Conference (SSAC) Conference Champions nine times and Conference Tournament Champions six times. They have held 1st and 2nd place rankings in the NAIA Division I.

In the fall of 2002, Southern Polytechnic added its first-ever women's basketball team, the Lady Hornets.

SPSU's baseball team has played in the NAIA World Series and earned the Georgia Alabama Carolina Conference (GACC) Tournament Championship in 2004. The conference name changed to the Southern States Athletic Conference (SSAC) in 2005, and the Runnin' Hornets won the conference championship in 2007 and the tournament championship in 2009. Head baseball coach Matt Griffin was named 2007 SSAC Coach of the Year. Fourteen SPSU baseball players have been drafted into professional baseball. The team played in the NAIA College World Series in May 2009.

SPSU Athletic Director Karl Staber was named SSAC Athletic Director of the Year in 2007. Southern Polytechnic formed a new intercollegiate men's soccer program that began competition in August of 2007.

Historical Highlights

Founded in 1948 as a two-year division of Georgia Institute of Technology, the school was established at the request of Georgia business and industry. It first opened its doors as The Technical Institute in rented military barracks in Chamblee, Georgia.

The first director, L.V. Johnson, began operations with 116 students, all but 10 of whom were World War II veterans and all but one of whom were male, and a staff of 12 members.

In 1949, a name change and a status change became important to the institution and its students. Now called the Southern Technical Institute, the institution was recognized as a college-level school by the U.S. Department of Education.

Less than a decade later, the growing college moved to its current campus in Marietta, Georgia. In 1961, Hoyt McClure was named acting director and led the move of the college to eight new buildings on 120 acres of land. This was the base of today's campus of 203 acres.

In 1970, SPSU became a four-year college and one of the first colleges in the nation to offer the bachelor of engineering technology degree.

In 1979, the Board of Regents of the University System of Georgia approved making "Southern Tech" an independent senior college in the University System of Georgia, severing organizational ties with its former parent institution, Georgia Tech. In the summer of 1980, the school officially became the 14th senior college and the 33rd independent unit of the University System.

The college's first president, Dr. Stephen R. Cheshier from Purdue University, was named in 1980 and took the college through the transition of becoming Southern College of Technology in 1987. He served with distinction until his retirement as president in June 1997.

The school became a university and was re-named Southern Polytechnic State University in the summer of 1996.

Dr. Daniel S. Papp was SPSU's interim president from July of 1997 until the summer of 1998.

The University welcomed Dr. Lisa A. Rossbacher as the second president of SPSU in August 1998. She is currently in her twelfth year of service at Southern Polytechnic.
