Southern Polytechnic  
State University

Office of Institutional Research

Date: July 31, 2013

Vision Statement (11/28/05; revised 4/1/09)

Southern Polytechnic State University is a comprehensive university with a unique purpose. Through a fusion of technology with the liberal arts and sciences, we create a learning community that encourages thoughtful inquiry, diverse perspectives, and strong preparation of our graduates to be leaders in an increasingly technological world.

The university – faculty, staff, students, and graduates – aspires to be the best in the world at finding creative, practical, and sustainable solutions to real-world problems and improving the quality of life for people around the globe.

Mission Statement (approved by the Board of Regents 3/8/06)

Southern Polytechnic State University is proud to be Georgia's technology university. Our academic, professional, outreach and service programs embrace all aspects of technology, including the practical applied skills (techne) needed to solve today's real-world problems and the theoretical knowledge (logos) necessary to meet tomorrow's challenges. SPSU graduates are well prepared to lead the scientific and economic development of an increasingly complex state, nation, and world.

Our mission is to serve both traditional and non-traditional students at the undergraduate, graduate and continuing education levels; in engineering and engineering technology, the sciences, applied liberal arts, business and professional programs. We work to develop the broader community's intellectual, cultural, economic, and human resources. Facilitated by our innovative faculty, dedicated staff, and supportive campus environment, our learning community empowers SPSU students with the ability and vision to transform the future.

## Foreword

The Office of Institutional Research, Planning, and Assessment is proud to present the fourteenth edition of the **Southern Polytechnic State University Fact Book**.

The Fact Book is designed to provide current and historical data about Southern Polytechnic State University to aid decision-making.

As you review and use this publication, please make a note of items that you feel should be added or deleted. Continued improvement is our goal, and current and future publications of the Fact Book will reflect suggestions for change.

Please send suggestions to [rkoger@spsu.edu](mailto:rkoger@spsu.edu).

Thank you.

Dr. Ron Koger  
VP Student and Enrollment Services

## Introduction

Southern Polytechnic State University, a member of the University System of Georgia, is a comprehensive technological university with a unique purpose. Through a fusion of technology with the liberal arts and sciences, SPSU creates a learning community that encourages thoughtful inquiry, diverse perspectives, and strong preparation of its graduates to be leaders in an increasingly technological world.

Southern Polytechnic is located in the historic, vibrant city of Marietta, Georgia, northwest of downtown Atlanta. Approximately 6,200 traditional and non-traditional students attend day, evening, and weekend classes on a campus of naturally wooded landscape with modern facilities and on-campus apartment housing to meet students' academic, physical, and social needs.

The institution was founded in 1948 at the request of Georgia business and industry as a two-year division of The Georgia Institute of Technology, originally called The Technical Institute and soon thereafter the Southern Technical Institute. It became an independent college in the University System of Georgia in 1980, when the school's first president, Dr. Stephen Cheshier, was named. The college became a university in 1996 with the new name of Southern Polytechnic State University. Its second president, Dr. Lisa A. Rossbacher, joined SPSU in the summer of 1998.

## Academic Programs

The University offers bachelors and masters degrees and continuing professional development in science, engineering, technology, business, architecture, and related fields, with a focus on how to apply knowledge and use technology to solve real-world problems. Dedicated and experienced faculty with excellent academic credentials and business and industry experience teach in the University's academic areas: the School of Architecture and Construction Management; the School of Arts and Sciences; the School of Computing and Software Engineering; the School of Engineering; and the School of Engineering Technology and Management.

Southern Polytechnic has earned an exceptional reputation in the field of engineering technology education. The 2012 edition of *Profiles of Engineering and Engineering Technology Colleges*, published by the American Society for Engineering Education, ranked SPSU as #1 in the number of African-American male students receiving engineering technology bachelors degrees, #2 in the number of African-American female students receiving engineering technology bachelors degrees, #4 in the total number of engineering technology bachelors degrees awarded, #6 in the number of engineering technology bachelors degrees awarded to women, and #6 in the number of students enrolled in engineering technology bachelors programs.

SPSU is a university of diverse and talented students. Entering freshmen rank in the top four highest SAT scores in the University System of Georgia.

Over the years, Southern Polytechnic has expanded and broadened its degree programs in some of the nation's fastest growing fields, such as software engineering and information technology, and it offers a variety of arts and sciences degrees in fields that include mathematics, physics, biology, English and professional communication, and international studies. In late 2006 and early 2007, the University added three new undergraduate engineering degree programs: construction engineering, mechatronics engineering, and systems engineering. Degrees in chemistry, psychology, and political science were added in 2007 and 2008. In 2009, degrees were added in civil engineering, electrical engineering, mechanical engineering, accounting, and computer game design and development. In 2011, teacher certification degrees were added in biology, chemistry, mathematics, and physics; as was the B.A. in new media arts. The University also offers a nationally accredited Bachelor of Architecture, which has been listed in the *America's Best Architecture and Design Schools* as one of the top ten schools in the south. An M.S. in Architecture degree will be offered beginning fall 2013.

Southern Polytechnic is also leading the way in Georgia with its non-degree certificate programs in technology-related areas. Non-degree certificate programs are offered through the Office of Extended University and include certification in embedded systems, computer service technician, web developer, programming, time study, and A+ Test Prep. The Computer Science Department offers a graduate certificate in software engineering that gives practitioners the opportunity to advance into leadership positions and provides courses that can be applied toward the Master of Science in Software Engineering. The Computer Science Department also offers an undergraduate certificate in programming. This certificate program includes courses that can be applied towards the Bachelor of Science in Computer Science.

### A University of Firsts

Southern Polytechnic is an educational institution of "firsts." Since the mid-1990's Southern Polytechnic has been in the forefront of technological advances in education. In the fall of 1997 SPSU became the first institution in Georgia to offer a full degree program on-line. The Master of Science in Quality Assurance, offered by the Industrial Engineering Technology Department, set the tone for educational options in the future and Southern Polytechnic has continued to serve as a role model within the University System of Georgia. Since that time, Southern Polytechnic has expanded its on-line options over the years, adding several on-line bachelors and masters programs. Innovative initiatives continue with new articulation agreements and international partnerships that expand access to academic programs in high demand. Additionally, Southern Polytechnic was among the first institutions to join collaborative programs including the electronic core curriculum (eCore) on-line and the WebBSIT programs which are provided in conjunction with other University System institutions.

Other University "firsts" include:

- The University System of Georgia's **only** nationally accredited professional Bachelor of Architecture degree
- Georgia's **first** masters program in technical and professional communication
- Georgia's **first** masters program in the management of technology (now an MBA degree)
- The Southeast's **only** masters programs in electrical engineering technology and quality assurance
- Georgia's **only** masters program in construction management
- Georgia and the Southeast's **first** Bachelor of Science in Telecommunication Engineering Technology
- Georgia's **only** bachelors degree program in software engineering and Georgia's only masters degree program in software engineering at a public institution
- Georgia's **only** bachelors degree in surveying and mapping
- Georgia's **first** undergraduate degree in Construction Engineering, which is one of only nine in the country
- Georgia's **first** Mechatronics Engineering degree and one of only seven in the country
- Georgia's **first** Bachelor of Science in Environmental Engineering Technology (EnvET) degree
- The **only** Bachelor of Science in Environmental Science (ENVS) degree in metropolitan Atlanta
- The **first** institution in the University System of Georgia to build privatized on-campus housing. These apartments served as a pilot program for the System.

### Student Life

Southern Polytechnic provides many opportunities for growth beyond the classroom. The University's student organizations compete and win top honors in highly competitive regional, national, and international competitions. Choices for student involvement are diverse, including the Student Information Security Team, the Autonomous Underwater Vehicle Team, the Super Mileage Vehicle Team, the Aerial Robotics Team, and the school's Forensics Team, among others.

Recent winning teams include the SPSU ASCE student Steel Bridge team which earned 1<sup>st</sup> place in the Southeast Region. The team had earned 3<sup>rd</sup> place the previous year. SPSU's Construction Management students' Commercial Team and Heavy Civil Team won the Best Presentation Awards at the Associated Schools of Construction (ASC) 2010 Competition for Region II. The Construction Management students also won 2<sup>nd</sup> prize in the national poster competition sponsored by the National Electrical Contractors Association (NECA).

SPSU students won both the Engineering Student of the Year Award and the Engineering Technology Student of the Year Award from the Georgia chapter of the National Society of Professional Engineers in 2011 and again in 2012.

SPSU's Construction Management student team won second place in the annual Associated Schools of Construction Competition of Region II, at Jacksonville FL October 22-24, 2008. Two SPSU Construction Management students placed second in the Mechanical Contractors Association of America (MCAA) Student Summit held at Denver from October 1-2, 2009. SPSU finished in 1<sup>st</sup> place at the MCAA, nationally, in Orlando, FL, October 2011.

SPSU students won 1<sup>st</sup> place in the 2010 Peach State Lewis Stokes Alliance for Minority Participation (PSLSAMP) Life Sciences/Cellular and Molecular Biology Oral Competition, as well as 1<sup>st</sup> and 2<sup>nd</sup> place in the Technology & Engineering Oral Competition. In 2009, SPSU students earned 1<sup>st</sup>, 2<sup>nd</sup>, and 3<sup>rd</sup> place in Technology & Engineering Oral Presentation Competition. In October 2011, our students placed 1<sup>st</sup> in a statewide competition to create a social business during the Georgia Social Business and Microcredit Forum.

Architecture students submitted design entries in the ASM Manifestations of Memory competition hosted by UNC Charlotte. One placed in the top tier of six winners (out of 66 entries from national and international design teams) and the other received an honorable mention for Graphic Clarity. Also, an SPSU student was awarded First Prize for a regional student architecture competition to design a building to house the Center for Civil and Human Rights located in downtown Atlanta.

Greek organizations, the student newspaper (*The STING*), intramural programs, honor societies, student government, and other activities and organizations give students many options for participation.

Intercollegiate athletics are also an important aspect of student life. The university sponsors four intercollegiate sports: baseball, men's basketball, women's basketball and men's soccer. The teams compete as members of the National Association of Intercollegiate Athletics (NAIA) and the Southern States Athletic Conference (SSAC).

The men's basketball team has earned the opportunity of participating in the NAIA national tournament 15 times. The Hornets have been SSAC regular-season champions or co-champions on 10 occasions and claimed seven SSAC Tournament titles. The team is led by Head Coach Jeffrey Pourchier.

In the fall of 2002, Southern Polytechnic added it's first-ever women's basketball team. In the Hornets' short history, they have made three appearances at the NAIA Division I national tournament, all over the last four years. Southern Poly has won two SSAC Tournament crowns and captured a conference regular-season co-championship. This past season, SPSU finished 25-6 overall and earned an automatic bid to the NAIA Division I national event. The program is under the direction of Head Coach Laquanda Dawkins.

Southern Poly's baseball squad has made it to the NAIA national tournament six times in the past seven years and played in the NAIA World Series twice. The Hornets' most recent trip to the Series was in 2009. SPSU was the SSAC Tournament champions in 2004, 2007 and 2009. The program has had more than 20 players drafted into professional baseball. Marty Lovrich serves as the team's head coach.

In only its third year of competition, the Southern Poly men's soccer team won the 2009 SSAC regular-season championship. The squad's fourth season (2010) saw the Hornets win the SSAC East Division title with an undefeated record and qualify for the NAIA national tournament. In 2011, SPSU won the SSAC Tournament crown and advanced again to the NAIA national event. Currently, Southern Poly has made four straight trips to the NAIA nationals with Elite Eight finishes the past two seasons. Head Coach Kom Momeni was named 2009 SSAC Coach of the Year.

### Historical Highlights

Founded in 1948 as a two-year division of Georgia Institute of Technology, the school was established at the request of Georgia business and industry. It first opened its doors as The Technical Institute in rented military barracks in Chamblee, Georgia.

The first director, L.V. Johnson, began operations with 116 students, all but 10 of whom were World War II veterans and all but one of whom were male, and a staff of 12 members.

In 1949, a name change and a status change became important to the institution and its students. Now called the Southern Technical Institute, the institution was recognized as a college-level school by the U.S. Department of Education.

In 1961, Hoyt McClure was named acting director and led the move of the college to eight new buildings on 120 acres of land at the current campus in Marietta, Georgia. This was the base of today's campus of 198 acres.

In 1970, SPSU became a four-year college and one of the first colleges in the nation to offer the Bachelor of Science in engineering technology degree.

In 1979, the Board of Regents of the University System of Georgia approved making "Southern Tech" an independent senior college in the University System of Georgia, severing organizational ties with its former parent institution, Georgia Tech. In the summer of 1980, the school officially became the 14th senior college and the 33rd independent unit of the University System.

The college's first president, Dr. Stephen R. Cheshier from Purdue University, was named in 1980 and took the college through the transition of becoming Southern College of Technology in 1987. He served with distinction until his retirement as president in June 1997.

The school became a university and was re-named Southern Polytechnic State University in the summer of 1996.

Dr. Daniel S. Papp was SPSU's interim president from July of 1997 until the summer of 1998.

The University welcomed Dr. Lisa A. Rossbacher as the second president of SPSU in August 1998. She is currently in her sixteenth year of service at Southern Polytechnic.

\* Effective August 2012, the School of Architecture, Civil Engineering Technology, and Construction became the School of Architecture and Construction Management. Civil Engineering Technology moved to the School of Engineering Technology and Management in August 2012. Numbers in the column above for FY 2012 reflect that change even though Fall 2011 is in the FY.

\*\* Effective August 2012, the Division of Engineering became the School of Engineering.

\* Graduation Rates are based upon those who graduated from their initial first-time full-time freshman major. Many will have graduated from SPSU in another major; however, they are not shown in the graduation rates noted here.

\*\* Retention Rates are based upon those students who are retained in that particular major only. If a student changed majors at SPSU or left SPSU, that student is not included in the retention rate. If a student graduated at SPSU in that particular major, that student is included in the retention rate as well.

\*\*\* These tables are adjusted each year to reflect any updated changes in the database.
