

### 1. Purpose

This procedure describes how Kennesaw State University (KSU) identifies Environmental and Occupational Safety (EOS) laws, regulations, and other requirements that are applicable to EOS activities and operations at KSU.

### 2. Scope

This procedure applies to all KSU operations and activities.

### 3. Responsibilities

The EHS Department is responsible for maintaining a comprehensive list of applicable EOS laws and regulations, and for informing the University of new regulations and requirements that apply or have an impact on KSU operations. (EOSMS-109 EHS Communication Procedure)

The EHS Director is responsible for coordinating with the KSU Division of Legal Affairs as appropriate.

### 4. Procedure

#### A. List of Regulatory and Other Requirements

The EHS Department maintains a list of regulatory and other requirements that are current and applicable to operations and activities occurring at KSU (refer to Table 1 of this procedure).

#### B. Maintenance and Review of Regulatory and Other Requirements

The EHS Department periodically assesses university operations and activities to identify new developments or changes that may have a regulatory impact to keep the list of regulatory requirements current.
