

# Research Development Faculty Guide

Research Development (RD) supports faculty through services that foster innovation, strengthen proposals, and build research partnerships.

## Key Services We Provide

- **Schedule a one-on-one coaching session** to create a strategic research roadmap and plan how to build and sustain your research program at KSU.
- **Identify potential sponsors** with our guidance to help make your research goals a reality.
- **Access internal funding opportunities** that can support needs assessments or help you gather preliminary data for grant applications.
- **Develop your grantsmanship skills** — an art that we can help you master through personalized feedback and expert support.
- **Take advantage of on-demand resources**, workshops, grant-writing programs, and proposal reviews to transform your ideas into successful proposals.
- **Build your research team** by finding collaborators with complementary expertise and recruiting students or postdoctoral researchers.
- **Engage with interdisciplinary research communities** as a starting point for collaboration and idea exchange. cost transfers, salary reallocations, and other post-award financial activities.

## Instructions on how faculty can access these services:

- Add the OVPR calendar to Outlook to stay updated on upcoming events.
- Join virtual office hours for quick questions or guidance.
- Register for workshops and programs through our event portal or email updates.
- Access on-demand resources on the RD website.
- Join an interdisciplinary research community to find collaborators and new opportunities.
- Contact the RD team for personalized support.
